

WB-SemiRigid FLEX

Model: SRTFLEX-SEMI RIGID

Application

SRTFLEX-SEMI RIGID (Semirigid Flexible Duct) is a bendable flexible ducting in aluminium. The SRTFLEX-SEMI RIGID products are being used for the HVAC market as well as for various industrial purposes.

Construction

Alu 1-layer: Spirally produced ducting of one layer of Aluminium Foil

Specification

Duct Material	Aluminium
Thickness of Aluminium	0.10 mm
Standard Legth	6 m
Compressed Length	2 m
Diamter Range	50 mm / 300 mm
Temperature Range	-30 / +250 °C
Maximum Air Velocity	25 m / sec (4922 ft/min)
Max. Positive Working Pressure	2000 Pa
Packing	Bulk Carton
