EGG CRATE GRILLES
 MODEL : WB-EC

WONG BROTHERS

WB-EC

Ceiling or Wall Mounted Return or Exhaust Air Grilles

Introduction

Available in epoxy finished powder coating or natural anodised, these light weight grilles have the largest free area making it the most versatile grille for return air, exhaust air, transfer air and best of all it can act as an access panel for easy reach above the ceiling. Its perfectly uniform grids permits easy and natural blending to most architectural designs. Though usually horizontally mounted, it can also be mounted vertically.

The WB-EC Egg Crate are flat bladed panels fabricated of non-combustible aluminium. Swedging at every cell intersection results in a rigid panel with a high degree of structural integrity. The Wong Brothers WB-EC grilles are available in an extensive range of standard and make to measure sizes. An opposed blade volume control damper can be attached to regulate the amount of return and exhaust air and to balance the system.

Wong Brothers also produce a removable core type grille c/w hinges or fasteners for installation of filter media.
